

**ASSMANN**

ROOMS

**ASSMANN 4ROOMS** is ASSMANN's one-stop-shop for consulting, design, furnishings and implementing a modern workspace:

**Workplace** (Consulting) – **Creation** (Planning) –  
**Product** (Products) – **Support** (Customer Service).

# Workplace

The first thing we do is undertake a detailed needs analysis and **consult** with you to really understand your requirements and meet your specific requests. Together we will work out what we need to focus on, define goals and develop unique solutions that offer you real value.

## CULTURE

Company culture or an upcoming change in processes will guide decision-making and planning.

## TARGETS

Define project goals, such as fostering internal communication through open-plan workspaces.

## TRENDS

Development of furnishing solutions with the help of trends such as digitalisation or collaborative working environments.

## ORGANISATION

Detailed analysis to improve communication and use of space.

## SPACE

Space analysis leading to recommendations in terms of light, acoustics and infrastructure.

## PROCESS

Helping you to implement new workplace concepts successfully and promote ongoing process evaluation.

## TECHNOLOGY

ASSMANN inspiration workshops on digitalisation trends including bespoke recommendations for action.

# Creation

Building on the outcome of our initial consultation, the **planning** phase will begin. This is when we firm-up ideas, select colours and materials and design your unique workspaces tailored to your needs. Realistic visualisations of all rooms will be generated to help you imagine your new space.

## ZONING

Functional areas to satisfy set criteria such as communication, concentration or a space to re-energise are planned.

## VISUALIZATION

Realistic visualisations through the use of renderings, augmented reality and virtual reality.

## COLLAGE

Colours and materials are finalised to complement each other.

## PLANNING

A 2D/3D room plan and a 2D space and 2D/3D furnishing plans are drawn up.

## DESIGN

Development of a holistic interior design concept concluding with selecting office furniture systems and furnishing solutions.

## TOOLS

Modern digital planning programs and precise laser measurement tools allow for spatial planning.

## IDENTITY

Choose from colours, materials and products that match your company's corporate identity.

# Product

ASSMANN offers a multitude of **products** that have been proven to make work processes easier: from height adjustable and ergonomic desks through to design-oriented lounge furniture and seating, and soundproof separating walls and storage systems. The perfect solution for each and every requirement and space.

## CONFERENCE

Extendable table systems and comfortable seating for meeting, conference or seminar rooms.

## COMMUNICATION

Fosters communication: from stylish to soundproof lounge furniture to separating walls for open-plan spaces.

## RE-ENERGISE

Lounge furniture and seating available in diverse designs for breakrooms, recreation areas, waiting rooms and quiet zones.

## EQUIPMENT

Function meets comfort with leafy green spaces and intelligent cable management.

## SYSTEMS

Office furnishing systems such as desks, storage solutions, reception desks and lounge elements.

## SEATING

The perfect seating for every space, be it soft seating systems, swivel or hard plastic chairs.

## MARKETPLACE

A meeting place: ASSMANN furniture systems encourage communication in a relaxed, cosy atmosphere.

# Support

Excellent work means excellent **customer service**: Reliable support from ASSMANN before, during and after working with you, with a range of services and support on offer. These include financing new furnishing systems, old furniture disposal and ongoing services even after the project is complete.

## **FINANCING**

Leasing and hire models for select systems – with tailor-made financing options available.

## **INSTALLATION**

ASSMANN will provide you with expert installation on your premises and with the setup of office furnishing systems.

## **MOVE**

ASSMANN will help you organise a move and arrange everything with the removal company.

## **IDENTIFICATION**

Furniture system assets are catalogued and registered.

## **RETURN**

ASSMANN will dispose of your old furniture or recycle it in a way that is kind to the environment.

## **TRANSPORT**

Precise planning of routes by the logistics team and shorter delivery times for select models.

## **AFTER SALES**

Product warranty and complaints processing – excellent customer service long after installation.
