Syneo Soft | Lounge

Rethinking communication zones and shaping them in an appealing design language:
Syneo Soft lounge furnishings are based on stylish, acoustically effective furnishing solutions.

Lounge Work & Seat

Lounge Seat

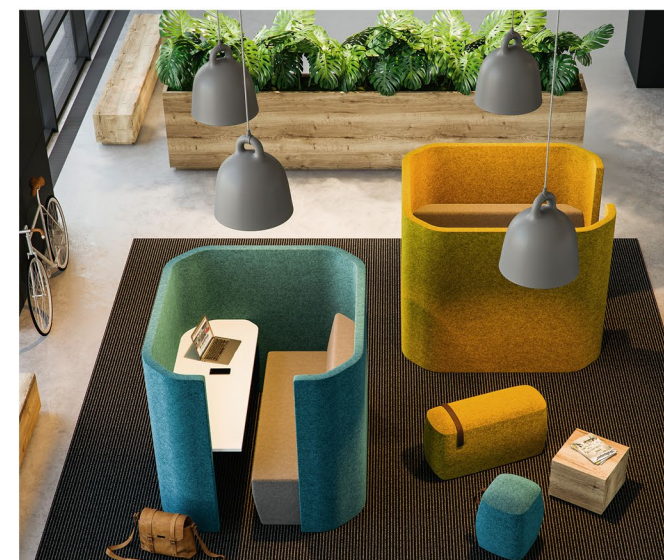

Lounge Conference

Meeting room | Private space | Co-learning space

Whether in an open plan office, in reception and waiting areas, or as a stylish learning and working environment – Syneo Soft lounge furniture can be used flexibly and provides space for meetings, quiet talks and creative exchange of ideas.

Syneo Soft | Lounge

At the centre of things, yet secluded: the various seating elements and partition walls of the Syneo Soft Lounge series provide a variety of design and combination options for configuring and implementing individual lounge and communication areas.

Lounge Conference with partition wall

Ideal working atmosphere

The elegant lounge systems can be individualised with the aid of a large selection of materials, colours and supplementary elements. Thanks to the use of high-quality materials, our Lounge furniture contributes to an improved room acoustic, creating a relaxed environment for conversation.

Syneo Soft | Freestyle

New possibilities for the flexible office: featuring integrated sofas and table, Syneo Soft Freestyle is available with a stylish lamella roof or closed ceiling and optional dimmable LED lighting according to preference.

Maximum flexibility in the use of space

The Meeting cubicle can easily be shifted to where it is needed to meet the working situation, offers the highest standard of seating comfort, and is available with sliders or rollers according to preference.

Accessories for Syneo Soft | Freestyle

Individual power supply for autonomous use

Syneo Soft is optionally available with power plugs or integrated battery technology for flexible use in the office, so that smartphones or tablets can be charged directly from the table via USB-C and USB-A sockets.

Power cable with socket available

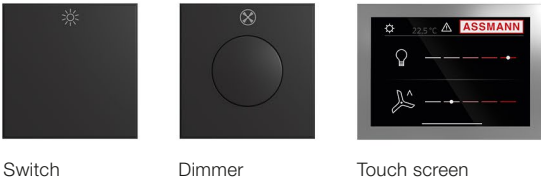

Battery with USB-C and USB-A connectors available

Syneo Soft | Phone

Noisy outside, quiet inside. Syneo Soft Phone is a closed, space-saving secluded place for telephone calls. The cabins are fitted with a motion sensor that controls the integrated lighting and ventilation system.

Syneo Part | Mobile partition screens

Whether as a flipchart, mobile partition with computer screen mounting, whiteboard or lacquered panel that can be used as a magnetic wall – flexible Syneo Part partition screens provide the widest possible variety of options for the most diverse requirements.

Syneo Part | Diner

The Syneo Diner modules can be linked to one another or supplemented by an additional storage space element. The comfortable backrests are available in two different heights.

Syneo Part | Seating elements

Stylish and flexible, Syneo Part seating elements are available in three different sizes, are easy to move, and make an ideal addition to all Syneo Lounge or Meeting furniture solutions.

Syneo Part | Wardrobe

There's a place for everything in the Syneo Part wardrobe. Individual elements can be linked to one another according to individual needs. In addition to the seating option with backrests of various height, combinations with storage spaces or shelving modules are also possible.

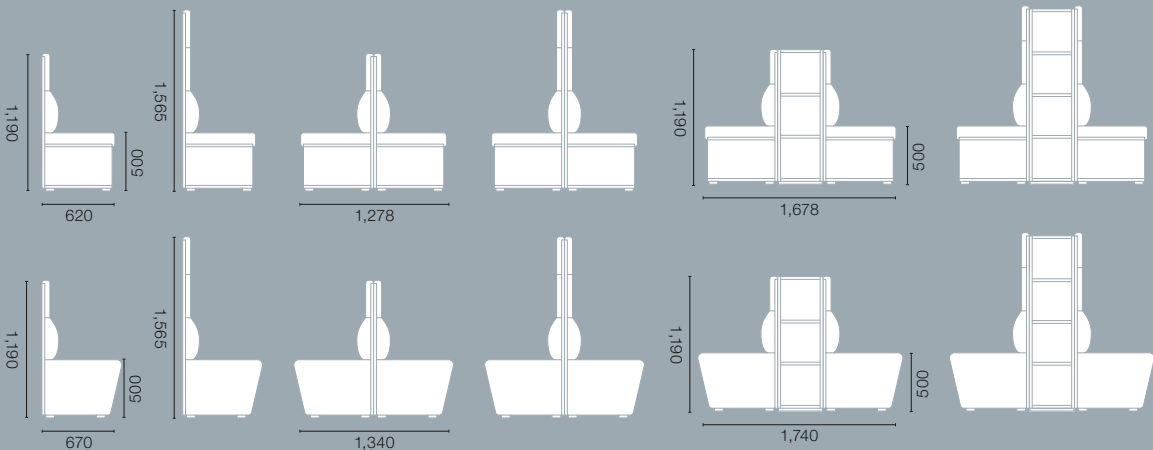

Syneo Part | Roller Container | Bistro table

The handy Syneo Part roller containers provide adequate storage space for important documents and are fitted with soft seat upholstery. The bistro table is the ideal addition to all Syneo Soft and Syneo Part models.

Skai® Parotega NF + Skai® Pandoria Plus:

Optimum room acoustics for NEW WORK

Open office layouts help their users to share information quickly and promote flexibility. But these benefits come at the cost of a noisier environment, where relatively modest noise levels can lead to stress and impair performance capacity. The principal decisive factors for a quiet working environment are a short reverberation time and a quiet working environment, which Syneo's room-in-room solutions and sound-absorbing surfaces can influence for the better.

Voices and noises penetrate neither into the cabin nor from the cabin to the outside. Conversations can be pursued without disturbance and in confidence.*

From a subjective viewpoint, a reduction of only 10 dB(A) is already equivalent to a 50 % volume reduction.

Sound level reduction

	Syneo Line Phone	Syneo Line Duo Pod	Syneo Soft Phone	Syneo Soft Meeting
	15 dB(A)	17 dB(A)	17 dB(A)	14 dB(A)

Sound level reduction, speech spectrum

Reverberation time

	Syneo Line Phone	Syneo Line Duo Pod	Syneo Soft Phone	Syneo Soft Meeting
	0.10 s	0.10 s	0.16 s	0.35 s

Reverberation time average T speech (250 – 2000Hz)

*Ambient sound of 40dB must be present for sound not to penetrate out of the box.

Sound creates harmony

Acoustics are an often undervalued factor in productivity. In addition to their new possibilities for seclusion and reducing the office noise level, the modern design of Syneo furnishing systems is equally impressive. They thus combine both visual and acoustic aspects of space optimisation to create a smart holistic concept. As a result, staff performance capacity and well-being are boosted and optimum conditions are created for concentrated work.

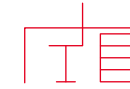

The Syneo meeting cubicles create private spaces for discussion, both acoustically and visually.

Whether it's a spontaneous video meeting or a telephone call to customers – it can be held without any disturbance from outside in Syneo Line Phone cubicles.

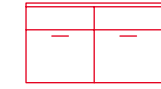

Furniture solutions and services from a single source

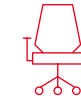

Desks

Modern design, a wide range of variants and tested quality, combined with optimised functionality and flexible height settings for ergonomic workspaces.
